RE: SAFETY DATA SHEET/MATERIAL SAFETY DATA SHEET

Thank you for your interest in ATI's **911.808 Double-Coated Permanent Acrylic Adhesive Tape (MirroFlex Door Skin adhesive and Adhesive for MirroFlex flat sheet)**. Please be advised of the following information; Magnum Tapes & Films pressure-sensitive tape and film products are considered Articles per OSHA Hazardous Communications Standard 29 CFR Part 1910.1200 Section (b)(6)(v) and the definition thereof in section (c). **As such, the products do not require an SDS.**

The definition of an Article per 29 CFR Part 1910.1200 Section (c) states: "Article" means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., a minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.
