

### Create Supports LEED V4 Credits

Create Wallcoverings are eligible within the LEED rating system for both new construction (LEED-NC) and commercial interiors (LEED-CI) projects. LEED rates projects, not products, therefore a product cannot carry its own LEED rating.

However, use of Create Wallcovering may contribute to LEED points in several categories. LEED credits are earned when products are combined to achieve a specific end result (indoor air quality, recycled content, etc.).

### New Construction & Commercial Interiors

*Building Product Disclosure & Optimization*  
MR Credit Option 1 | Material Ingredient Reporting

Credit awarded for the inventory of a product's chemical ingredients via accepted methodology & for selecting products verified to minimize the use & generation of harmful substances.

Our wallcovering has a complete, published Health Product Declaration (HPD) with full disclosure of known hazards in compliance with the Health product Declaration Open Standard.

### *Low Emitting Materials*

EQ Credit Option 1 | Ceilings & Wall Systems

Wallcovering must be tested & found compliant with California Dep't. of Health Standard Method v1.1-2010 for VOC emissions.

Create Wallcovering meet this spec & may contribute to this credit.

EQ Credit Option 1 | Interior Adhesives & Sealants

Wallcovering installed using compliant, Low VOC adhesives may contribute to this credit.

Create Wallcovering installed with recommended Roman ECO adhesive reduce indoor air contaminants & may contribute to this credit.
