## Suspended Baffle Panels

Our suspended array of flat rectangle baffles are perfect for large open spaces requiring style and acoustical function. Be creative with different sizes and colors to create an appearance of a multi-dimensional design in the ceiling.

### Features

- Two-part designs offered in 1", 2", and 4" thicknesses to manage the most difficult spaces, these lightweight and durable substrates consist of highest quality rigid 6-7lb fiberglass board
- Simple suspended applications that can be configured for any ceiling application. For added flexibility, the suspension hardware is up to the designer or installer.
- Recommended spacing ranges from 12"-24" depending on space requirements. Our substrate offers superior sound control over felt applications and requires less density positioning.
