

Mode Acoustic Felt Screen Divide

Designers have long sought materials that offer greater creative freedom — and Mode Acoustic Felt rises to the challenge. Engineered for flexibility, it enables bold, three-dimensional forms and custom interconnections that push the boundaries of acoustic design. Weighing just one-third as much as traditional panels, it's easy to install, cost-effective to ship, and made from recycled plastic bottles. It's also 100% recyclable and naturally Red List compliant, making it the smart, sustainable choice for today's interiors.

Enter the Mode Acoustic Felt Screen Divide, part of our AMPD (Adaptive & Modular Product Design) series. This dynamic acoustic screen is fully user-modifiable — shipped with cutout pieces still in place, so you control how much visual privacy, sound absorption, or transparency you need. The individual elements can be rotated, shifted, or removed entirely, allowing you to tailor the screen for aesthetics, acoustic performance, or spatial division. With Mode Acoustic Felt Screen Divide, your environment adapts to your design vision.

Specifications

Product Name	Mode Acoustic Felt Screen Divide
Content	100% Polyester (PET) with a minimum of 60% recycled content
Thickness	12mm
Width	47.5"
Length	95.5"
Tolerance	1/32"
Weight	.5lbs per sq ft
Edge	Exposed Felt
Sound Performance	NRC = 0.60*
Fire Performance	Product made from Class A PET felt material tested under ASTM-84
Variations	Mode Felt uses an industry standard felting process. Slight and consistent variations in color and "heathering" should be expected when using this sustainable material. Slight imperfections are within normal manufacturing tolerance and not visible in standard installations.
Environmental	Low VOC emissions, formaldehyde and phenol-free. Naturally Red List compliant.
Maintenance	Vacuum to remove any loose dirt or dust. You may use a soft or plastic bristle brush to loosen it. Avoid excess pressure. Compressed air can also be used to dust the material in difficult or large installations. If stains are present, you may saturate a lint-free cloth with a mild detergent or soap and water solution.
Warranty	10 years
Unit of Sale	Per unit

*Expected NRC
